

clinical control™

Designed by and for Clinical Trial Departments
at Hospitals and Clinical Research Sites

“The most flexible clinical
management system”

frameworksolutions

The most flexible clinical department management system available today.

As a leader in customizable software, Framework Solutions, Inc. (FSI) clearly understands that the functionality of a software platform is only as good as the benefits it provides, the flexibility with which it can be adapted, and its scalability as needs grow over time.

- Uniquely designed from the perspective of the clinical trial departments at major hospitals and research sites, **clinical control™** dramatically streamlines your operations, by integrating and automating data from all your various sponsored studies.
- With robust and customizable features, **clinical control™** can easily be modeled to your specific departmental needs. Simply put, **clinical control™** is the most customizable clinical trial management application on the market.
- For over a decade, **clinical control™** has proven to be a highly stable and robust application, offering peace of mind and superior performance.
- Unlike other programs that do not offer customization and require you to wait years for requested functionality **clinical control™** is built on a proprietary development "framework" which enables us to quickly and efficiently customize the application to your specific needs.

“What Sets Framework Solutions, Inc. and **clinical control™** Apart?”
We guarantee that **clinical control™** is the most FLEXIBLE solution on the market.

Powerful Features and Functionality:

- Automate patient screening and recruitment for maximum enrollment
- Track multiple protocols, sponsors, budgets, IRB's
- Efficiently monitor both sponsor and investigator initiated grants, studies
- Streamline financial management: budgets, payments, receivables, invoices, etc.
- Effectively track budget costs, revenues, projections, actuals, etc.
- Monitor and report employee time tracking per protocol, grant or study.
- Integrate with **clinical dms™**, our robust clinical data management platform

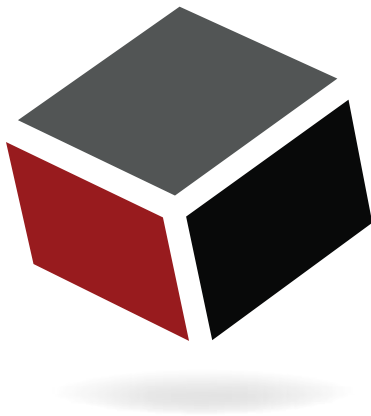

Realize the Benefits

- Feature-rich, customizable application guaranteed to meet your current and future needs
- Interfaces with existing data and reporting platforms
- Responsive and timely support tailored to your specific needs
- Reduce operational costs due to increased efficiencies
- Improve cash flow due to efficient financial management
- Increase patient and sponsor satisfaction
- Ensure departmental growth

About Framework Solutions

Founded in 2000, FSI is a leader in Customizable Software and Professional Services for industries such as health care, pharmaceutical and financial services. Since that time we have successfully completed projects for the world's largest pharmaceutical and medical device companies, national research labs, financial services institutions, mid-sized manufacturers, retailers and government agencies.

Framework Solutions, Inc. provides custom software development and professional services to enterprises of all sizes across all industries. The end result...automation, efficiency and consistency.

“SOFTWARE,
SERVICES,
SOLUTIONS.”
